CRACKING OPEN THE PASTELS

Happy spring, everyone! The weather is warming up, and the kids are cracking open eggs. So pastel colors are on our mind – here are a few custom pieces showcasing some gorgeous pastel hues.

Pretty in Pink, this beautiful sofa couch combines soft pink and cream colors with a striking hardwood base and legs.

Powder Blue for the win! We hopped to it with this extra-high back banquette, complete with button diamond tufting and hardwood bun feet.

We'll be at the NRA 2025 show in Chicago next month. It's May 17-20, and we'll be at booth #357. We'll have some awesome samples and surprises, and will also be offering a 10% discount on orders over \$2k to anyone who registers at our booth.

We had a great time at 2024's show, and this year will be even better. Please come see us if you're in town!

We want to reassure everyone that collaborating with Soft Touch Furniture is the best way to go during the uncertainty of the tariffs.

Keep buying from American-Made Furniture Manufacturers and you got yourself a Tariff-free Headache!
