Welcome
AUGUST

August is here, and just like the weather, things are always changing! This month, we're showcasing some of the unique pieces we've recently manufactured, along with a look at furniture styles making their way back into today's restaurants and lobbies. Plus, don't miss us at Panerathon on August 23rd!

Made with a solid wood top and resin, this custom table incorporates cigar wrappers, a corkscrew, and family memorabilia from our customer. It's a great example of how custom furniture can tell a story.

Flexibility is the key to a great seating layout. This unit seating uses a ganging mechanism to create unique configurations that can be arranged to fit a variety of spaces and needs.

A little bold, a little glamorous, and definitely eye-catching! This modular booth features vertical channeling and luxurious velvet upholstery

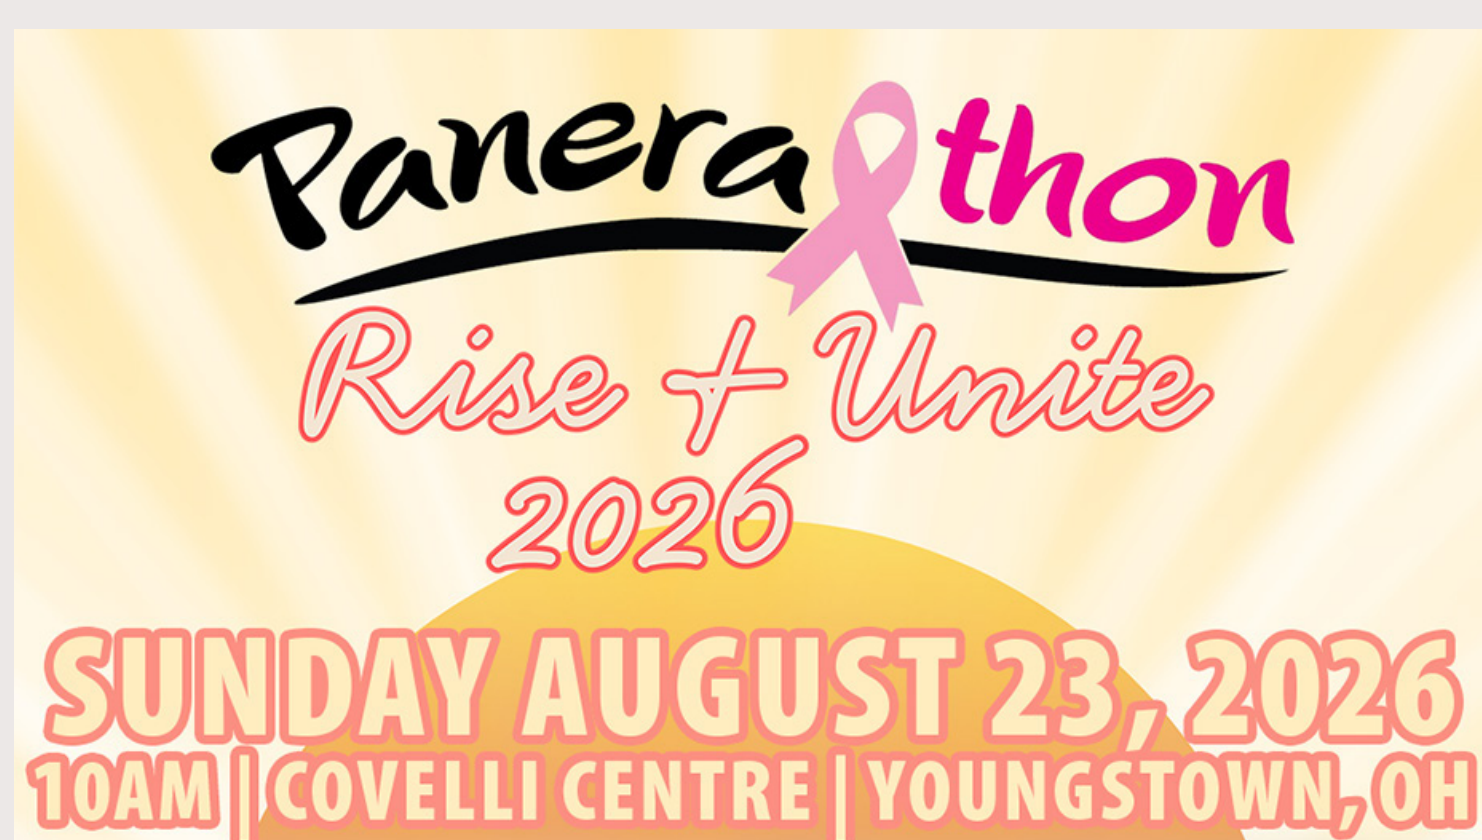

Furniture trends come and go, but some styles never really leave. From curved seating to bold upholstery and organic shapes, we're seeing some familiar looks make their way back into today's restaurants and lobbies.

Take a look at our latest blog to see which trends are making a comeback and which styles have stood the test of time
