It's All About The Base!

A table's top gets the most attention, but the base is what really makes it work. Not only does a base need to look good, it must hold the table level and be stable. Customers always notice a wobbly table.

Our table bases perform exactly the way you want them to—they are sturdy, strong, and able to stand up to daily use. We have a wide selection of stylish looks and features, including:

- A myriad of sizes
- All types of foot and base options
- Several finish options, including powder coated

Delivery and setup are our pleasure!

You will love the variety in the following pages. Call us when something catches your eye. We are happy to help!

Types of Bases

Bases come in five basic types: X-style, round, end base, bolt-down, and cantilever. End bases are always used in pairs, the bolt-down style is fixed to the floor, and the cantilever style is fixed to the wall.

X-Style

Round

End Base
(Used in pairs)

Bolt-Down

Cantilever

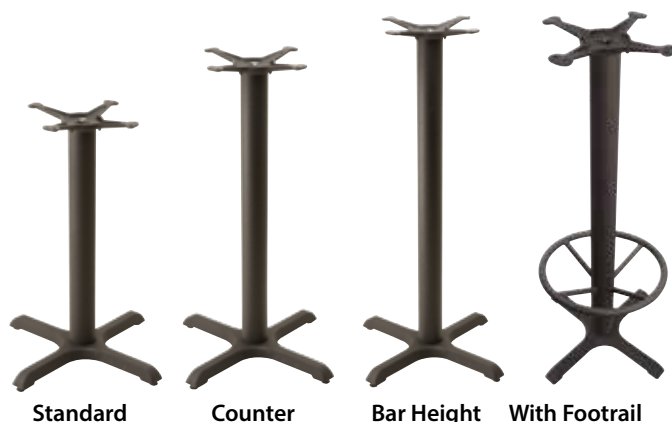

Bases are shipped K.D.; assembly required.

Superlevel

A wobbly table is a distraction that reflects badly on any establishment.

We can use Superlevel self-adjusting glides at an additional charge to our bases to prevent wobbling. Stable tables ensure that customers' attention is on your food and ambiance, not on keeping their drinks upright.

Advantages of Superlevel glides:

- Easy to install
- Automatically readjust each time the table is moved
- Keep all contact points touching the floor
- Correct for uneven or irregular surfaces
- Adjust up to 1/4"
- Designed and manufactured with high-grade materials
- Use indoors or outdoors
- Load capacity of up to 500 lbs. per set of four
