YOU HAD ME
AT TUFT

Doesn't "Tufting" sound a little romantic? Like couldn't you imagine someone saying "Oh look at those two lovebirds... they're tufting."

But of course, that's not what it means. Tufting is sewing incorporated into a cushion. Those buttons and patterns you see? That's tufting.

So despite no real romance involved, Tufting does look great, and we (and our customers) love it. So it's perfect for Valentine's Day.

Here are some great examples of Tufting, along with a link to our blog post about it. Enjoy!

Let's stay tufted together forever.
