It's the Great Booth, Soft Touch Furniture

Happy October from Soft Touch Furniture.

Fall is in the air, and the kids will be trick or treating before you know it. And if you're going to sit in the Pumpkin Patch and wait for the Great Pumpkin, you may as well sit on something comfortable. Like our Straight Banquettes... comfy, stylish, and with a high back so nothing sneaks up on you!!

We hope nobody is “really” going to put this straight banquette in a pumpkin patch. But it is perfect for a million other areas.

Like a lobby or waiting space; in a dining area with tables and chairs on the other side; or in a lounge in need of some Autumn-flavored ambiance.

Our Youngstown, OH customer needed a comfortable, stylish banquette. They wanted something in this section to take up space, but functionally, adding a seating solution to the interior space. This sofa-style banquette with biscuit tufting is a show-stopper and stops everyone in their tracks.

No Trick - Just a Treat

Much like a Halloween costume, our Parecido series of interchangeable back and seat booths are capable of any look you want.

This is next level furniture design, and we've got a special “call or email us” price this month.

Promo ends October 31, 2025.

Check out the blog below to learn more about Parecido, and then contact us for a special deal.
